Breaking up is hard to doVon mountainmamaThis novella is a touching story of a young woman who has just suffered through a painful breakup of her marriage and moved back into her deceased parents' old home. To add insult to injury, the outdated septic system needs replacing, requiring the removal of an old oak tree. This puts a huge strain her pocketbook, but even more worrisome is her guilt over displacing a squirrel she has befriended. We follow Karen as she is plunged back into the dating scene - with hilarious results as she discovers all the eligible men in Menyon Falls are single for good reason. Then her ex-husband decides he wants back in her life. Could anything else go wrong? A touching journey from despair to healing, Tim Greatedon has shown his skill at depicting characters who quickly worm their way into your heart. A wonderful, endearing story - you won't be disappointed.
